

LAKESIDE DENTAL
4851 Rice Mine Road, NE
Suite 540
Tuscaloosa, AL 35406
(205) 343-9393

THANK YOU FOR TRUSTING US WITH YOUR SMILE!

We will replace or repair any implant and/or crown that is damaged during normal dental use for up to two years at no charge. Trauma is excluded.

To ensure the longevity of your recent dental work we would like to encourage you to make an appointment with our hygienist to have a complete exam and dental cleaning. Regular check ups are important to your dental health and especially important after the placement of crowns or implants.

If you make your dental cleaning appointment within 1 month of having your dental work completed and continue seeing us on a regular 6 month basis for cleanings we will guarantee to replace or repair any problems with your implants and/or crowns for up to 10 years. We do not anticipate that any problems will arise, but this is our promise to you.

We appreciate your trust in us for your cosmetic dental treatment and hope that you will find our hygiene department just as rewarding.

Thank you,

Dr. Jim and Staff
